Facilitation Edge*

**Formerly called Advanced Facilitation Skills*

“I like how the course delved into how we show up as a presenter and showed us ways to become more authentic with our facilitation style.”

Overview

The Facilitation Edge course explores the role of the facilitator beyond tools and techniques and focuses on honing your ability to ‘read’ a group and know which intervention to use when. It’s a deep dive into what makes people tick and how the facilitator can support group discussion, collaboration and decision making.

The Facilitation Edge builds your confidence and a tool kit of different techniques. This course draws on over 30 years of experience across a diverse range of sectors and settings and goes to the next level. It will build your ability to stay present with a group and offer the one thing they need more than everything ... the whole and real YOU.
