

Tools to explore problems with a different lens and uncover new ways of approaching current dilemmas

Sometimes the problem is how we are looking at the problem, and NOT the problem itself!

Innovative Thinking

Overview

Innovation and thinking outside the box are easy to say but can be hard to do.

This interactive workshop explores the barriers to innovative thinking and provides tools to explore any situation with a different set of filters.

Ideal for teams and organisations looking to get off the treadmill and work with each other to stretch the envelope of what might be possible.

Learning Outcomes

- Explore key cognitive barriers to innovative thinking
- Identify organisational barriers and their enablers to thinking outside the box
- Apply the IDEA model for innovative thinking to a current problem or opportunity

Participants

- C-Level Executives
- Stakeholder and Community Managers
- Stakeholder and Community Engagement Officers
- Change Managers
- Project Coordinators
- Project Managers
- Strategic Communications Managers
- Communications Officers
- Elected Officials

Your Trainer
Joel Levin

When will you have your next Aha! moment?
